My read on these:

18-AH (2 copies) - I believe we sent some general records retention guidance in the time frame that would be responsive. Because it concerns records sent by DNS-36, DNS-36 should stay as far removed from the processing as possible, to avoid any appearance of impropriety.

18-AF (6 copies) - By my read, anything we've sent you discussing Hammond would be responsive. Because it concerns records sent by DNS-36, DNS-36 should stay as far removed from the processing as possible, to avoid any appearance of impropriety.

18-S - Addressed in my email last week.

18-R - Addressed in my email last week.

18-Q - Addressed in my email last week

V/r,

(b) (6)
